

TestCase

```
classDiagram
    class TestCase
    class GMockOutputTest["gmock_output_test.GMockOutputTest"]
    GMockOutputTest --|> TestCase
```

A UML class diagram showing an inheritance relationship. The superclass is 'TestCase' and the subclass is 'gmock_output_test.GMockOutputTest'. A vertical arrow points from the subclass box to the superclass box, indicating inheritance.

gmock_output_test.GMockOutputTest
