

TestCase

```
graph BT; GTestEnvVarTest[googletest-env-var-test.GTestEnvVarTest] --> TestCase[TestCase];
```

A UML class diagram showing an inheritance relationship. A box at the top contains the text 'TestCase'. A box at the bottom contains the text 'googletest-env-var-test.GTestEnvVarTest'. A vertical arrow points from the bottom box to the top box, indicating that 'googletest-env-var-test.GTestEnvVarTest' inherits from 'TestCase'.

googletest-env-var-test.GTestEnvVarTest
