

TestCase

```
graph BT; GTestColorTest[googletest-color-test.GTestColorTest] --> TestCase[TestCase];
```

A UML class diagram showing an inheritance relationship. A box at the top is labeled 'TestCase'. A box at the bottom is labeled 'googletest-color-test.GTestColorTest'. A vertical arrow points from the bottom box to the top box, indicating that 'googletest-color-test.GTestColorTest' inherits from 'TestCase'.

googletest-color-test.GTestColorTest
