

TestCase

```
classDiagram
    class TestCase
    class GTestOutputTest["googletest-output-test.GTestOutputTest"]
    GTestOutputTest --|> TestCase
```

A UML class diagram showing an inheritance relationship. The superclass is 'TestCase' and the subclass is 'googletest-output-test.GTestOutputTest'. A vertical arrow points from the subclass box to the superclass box, indicating inheritance.

googletest-output-test.GTestOutputTest
